RN1 Gihosha Taba

• Skills

Python Programmig

Django & DjangoRESTRamework

Flutter (Mobile Development)

Frontend (HTML, CSS, JavaScript, Vue.js)

Database Management

• Language

- Kirundi
- Kiswahili
- English
- France

• Profile

As a passionate and detail-oriented Software Engineer, I specialize in backend development using Python, Django, and Django REST Framework. I enjoy building reliable, scalable systems and crafting clean APIs that power modern web and mobile applications. With a growing interest in Flutter and front-end technologies, I bring versatility, problem-solving skills, and a continuous drive for innovation to every project I take on.

• Work Experience

Software Development Trainee | Hogitugende | April 2025

Created a Bakery Management System during advanced training, automating sales and inventory for a satisfied client.

Backend Developer (Intern & Project Developer) | Hogitugende | May 2025 - Present

Built and deployed a Microfinance Management System using Django & DRF, now live and maintained for real clients.

• Education

- A2 Diploma in Computer and Telecommunications (Informatique & Télécommunication)
École Technique Saint Éloi | A.Y. 2020-2021
- Bachelor's Degree in Software Engineering (Génie Logiciel)
Université du Lac Tanganyika | A.Y. 2023 - 2024
(Completed, awaiting official diploma - Attestation de Réussite)
